Product Data Sheet

DI620

32-Channel Digital Input Module

TYPE	REFERENCE	FAMILY	SCOPE
32-Channel Digital Input Module	**DI620**	**Advant Controller 110 / S600 I/O**	**Verified exact-model technical reference**

ABB DI620 3BHT300002R1 is a 32-channel digital input module in the Advant Controller 110 I/O range. The documented input level is 24 V DC, with the channels divided into four electrically isolated groups for grouped field-signal acquisition.

01 DOCUMENTED PRODUCT REFERENCE

Module type	Digital input
Input channels	32
Nominal input level	24 V DC

Evidence-led technical summary; unsupported ratings are intentionally omitted.

02 TECHNICAL DATA

Isolation arrangement	Four electrically isolated groups
Product family	Advant Controller 110 I/O
Article number	3BHT300002R1

03 APPLICATION AND CONFIGURATION

- DI620 and complete supplied marking
- Four isolated input groups and cabinet connectors
- Thirty-two channel assignments and controller mapping
- Qualified installation and functional acceptance
- Use the applicable manufacturer safety and installation instructions.

04 OFFICIAL DOCUMENTATION

ABB Advant Controller 110 product information 3BDD010003R0003

Only verified exact-model or explicitly identified family facts are summarized; unknown ratings are excluded.

Independently prepared Amikon reference summary, not an original manufacturer manual. Ratings apply only under their documented conditions. Confirm the supplied marking and approved configuration before selection, installation or replacement.
