Drive Interface Board

TYPE	REFERENCE	FAMILY	SCOPE
Drive Interface Board	**CMIB-11C**	**ABB drive interface hardware**	**Verified exact-model technical reference**

ABB CMIB-11C 3AUA0000041488 is a populated drive interface board identified by its exact product marking. The supplied assembly includes multiple board connectors and control-interface components arranged on a single printed circuit board for the assigned drive hardware position.

01 DOCUMENTED PRODUCT REFERENCE

Type designation	CMIB-11C
Article number	3AUA0000041488
Assembly type	Populated printed circuit board

Evidence-led technical summary; unsupported ratings are intentionally omitted.

02 TECHNICAL DATA

Functional identity	Drive interface board
Interface form	Multiple board connectors

03 APPLICATION AND CONFIGURATION

- CMIB-11C 3AUA0000041488 and complete supplied marking
- all board connectors and installed cable orientation
- board revision and drive configuration
- Qualified installation and functional acceptance
- Use the applicable manufacturer safety and installation instructions.

04 OFFICIAL DOCUMENTATION

CMIB-11C exact-model identity photographs

Only verified exact-model, official family, or visible identity facts are summarized; unknown ratings are excluded.

Independently prepared Amikon reference summary, not an original manufacturer manual. Ratings apply only under their documented conditions. Confirm the supplied marking and approved configuration before selection, installation or replacement.
