Product Data Sheet

APC700

APC Panel Circuit Board

TYPE	REFERENCE	FAMILY	SCOPE
APC Panel Circuit Board	**APC700**	**APC 700 panel**	**Physical interface reference**

ABB APC700, article 5761894-9C, is an open circuit board associated with the APC 700 panel assembly. Its elongated printed-circuit construction includes a screw-terminal connection and a shrouded internal connector, rather than a complete display, keypad or enclosed operator panel.

01 DOCUMENTED PRODUCT REFERENCE

Board construction	Open printed-circuit board
Terminal connection	Six-position screw terminal
Internal connector construction	Shrouded keyed multi-pin connector

Original product photographs summarized; no unverified electrical ratings.

02 TECHNICAL DATA

Mounting arrangement	Opposed end mounting holes
Thermal construction	Metal-backed power-device mounting surfaces

03 APPLICATION AND CONFIGURATION

- APC700 and complete 5761894-9C marking
- Six-position terminal and keyed connector
- Correct mounting and thermal arrangement
- Assembly documentation before qualified replacement
- Use the applicable manufacturer safety and installation instructions.

04 IDENTIFICATION SOURCES

Original ABB-marked APC700 5761894-9C board photographs

APC700 and 5761894-9C are visible in the original photographs. Values cover physical interfaces only. Complete APC700PAN panel specifications and unverified electrical ratings are excluded.

Independently prepared Amikon reference summary, not an original manufacturer manual. Ratings apply only under their documented conditions. Confirm the supplied marking and approved configuration before selection, installation or replacement.
