SIMATIC TPR relay terminal block

|                                         |                                      |                   |                |
|-----------------------------------------|--------------------------------------|-------------------|----------------|
| FUNCTION                                | FAMILY                               | ORIGIN            | WEIGHT         |
| <b>SIMATIC TPR relay terminal block</b> | <b>SIMATIC S7 connection modules</b> | <b>Not stated</b> | <b>0.45 kg</b> |

Siemens 6ES7924-0CD00-0AB0 is a SIMATIC TPR relay terminal block for the SIMATIC S7 connection modules. The values below are limited to the exact documented article.

01

## VERIFIED TECHNICAL DATA

|                              |                               |
|------------------------------|-------------------------------|
| Product family               | SIMATIC S7 connection modules |
| Module designation           | TPR terminal block            |
| Input voltage                | 24 V DC                       |
| Output channels              | 8 normally open contacts      |
| Maximum AC switching voltage | 230 V AC                      |
| Rated AC contact current     | 2 A                           |
| Maximum DC switching voltage | 60 V DC                       |
| Rated DC contact current     | 0.2 A                         |
| Output technology            | Relay                         |
| Terminal technology          | Spring terminal               |

|                    |                                   |
|--------------------|-----------------------------------|
| Connection role    | Signal adaptation                 |
| Controller context | SIMATIC S7                        |
| Installation type  | Control cabinet terminal assembly |
| Channel isolation  | Relay contact separation          |
| Supply quantity    | 1 piece                           |

- Industrial Manufacturing and Continuous Production: Discrete manufacturing and assembly production; Continuous industrial production operations
- Thermal, Hydroelectric and Renewable Power Generation: Thermal and hydroelectric power production; Renewable generation and energy integration
- Municipal Water and Industrial Wastewater Services: Municipal water treatment services; Industrial wastewater treatment operations

Match 6ES7924-0CD00-0AB0 to the installed SIMATIC S7 connection modules, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
