SITRANS P200 Pressure Transmitter

|                                                      |                               |                          |                                           |
|------------------------------------------------------|-------------------------------|--------------------------|-------------------------------------------|
| FUNCTION<br><b>SITRANS P200 Pressure Transmitter</b> | FAMILY<br><b>SITRANS P200</b> | ORIGIN<br><b>Germany</b> | WEIGHT<br><b>Confirmed with quotation</b> |
|------------------------------------------------------|-------------------------------|--------------------------|-------------------------------------------|

Siemens 7MF1567-3CB10-1AA1 is a SITRANS P200 Pressure Transmitter for the SITRANS P200. The values below are limited to the exact documented article.

01

## VERIFIED TECHNICAL DATA

|                              |                                        |
|------------------------------|----------------------------------------|
| Product family               | SITRANS P200                           |
| Measurement type             | Gauge or absolute pressure             |
| Measured media               | Liquids, gases and vapors              |
| Measuring cell               | Ceramic                                |
| Housing material             | Stainless steel                        |
| Output options               | 4 to 20 mA or 0 to 10 V                |
| Electrical connector options | EN 175301-803-A, M12, cable or Quickon |
| Enclosure protection         | IP65 or IP67 by connector version      |
| Measuring range family       | 1 to 60 bar                            |
| Overload capability          | High-overload design                   |

## ADDITIONAL PRODUCT DATA

|                              |                                         |
|------------------------------|-----------------------------------------|
| Process connection family    | Threaded pressure connection            |
| Explosion-protected versions | Available                               |
| Ambient application          | General industrial pressure measurement |
| Wiring basis                 | Manufacturer connection diagram         |
| Article identity             | 7MF1567-3CB10-1AA1                      |

## OFFICIAL APPLICATIONS

- Control and monitoring systems: Model specific integration and maintenance
- Plant production equipment: Documented signal and communication functions
- Installed base maintenance: Exact article replacement and commissioning

## SYSTEM COMPATIBILITY

Match 7MF1567-3CB10-1AA1 to the installed SITRANS P200, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
