HONEYWELL

51154187-100

HTD REGULATOR CONTROL SPARE

Honeywell 51154187-100 is identified as a HTD regulator control spare in the Honeywell industrial control spares product family. This sheet consolidates the recorded technical values for exact-model identification, purchasing review and controlled maintenance planning.

01 IDENTIFICATION AND FUNCTION

Product class	HTD regulator control spare
Part number	51154187-100
Equipment class	Industrial control component
Manufacturer family	Honeywell control hardware
Identification basis	Complete part-number marking

Identity note. Match the complete 51154187-100 marking, connector arrangement, hardware revision and installed configuration before replacement.

02 ADDITIONAL TECHNICAL DATA

Installation role	Compatible control cabinet assembly
Revision check	Match installed label and board revision
Replacement identity	Full 51154187-100 HTD regulator marking

APPLICATION REFERENCE

Industrial manufacturing

Production, processing and maintenance operations requiring verified industrial automation components.

Power and utilities

Power generation, distribution and utility maintenance where exact identity and compatibility are required.

Process operations

Continuous and batch-process facilities using controlled replacement and documented commissioning.

Replacement checks

Record the complete marking, installed position, connectors and surrounding hardware before removal.
