INDUSTRIAL CONTROL ELECTRONICS

Product Data Sheet

LPA245A

Industrial Control Board

ASSEMBLY FORMAT	EQUIPMENT CLASS	FAMILY
Printed circuit board assembly	**Industrial control electronics**	**Industrial Control Electronics**

Hitachi LPA245A is a printed circuit board assembly listed as an industrial control spare. The full part marking identifies the item for enquiries and nameplate comparison.

01 TECHNICAL DATA

Assembly format	Printed circuit board assembly
Equipment class	Industrial control electronics

Cross-checked part identification

02 ADDITIONAL PRODUCT DATA

The LPA245A is catalogued as an industrial control board. Host platform, electrical ratings and connector assignments require confirmation against the installed board or its equipment documentation.

03 PRODUCT FUNCTION

Use the complete LPA245A marking to identify the installed board. Record any assembly and revision numbers shown on the nameplate or circuit board.

04 SYSTEM COMPATIBILITY

Compare the mating connector layout and board mounting with the existing assembly. Use the equipment documentation to establish the electrical and interface requirements.

05 REFERENCE
