MICRONET PLUS AND MICRONET TMR

Product Data Sheet

5466-1036

CPU Module

HOST FAMILIES	MICRONET PLUS MIGRATION CPU	MICRONET TMR AND 5009 MIGRATION CPU	PLUS MIGRATION CODER RANGE
MicroNet Plus and MicroNet TMR	**5466-1035 for specified coder versions**	**5466-1047 for specified coder versions**	**4.06 to 5.04**

Woodward 5466-1036 is a MicroNet CPU module documented for compatible MicroNet Plus and MicroNet TMR configurations. The installed chassis and project coder release determine which migration path applies.

01 TECHNICAL DATA

Host families	MicroNet Plus and MicroNet TMR
MicroNet Plus migration CPU	5466-1035 for specified coder versions
MicroNet TMR and 5009 migration CPU	5466-1047 for specified coder versions
Plus migration coder range	4.06 to 5.04
TMR and 5009 migration coder range	5.04 to 5.08

02 ADDITIONAL PRODUCT DATA

Woodward PCN 06960 specifies distinct replacement combinations for MicroNet Plus and for MicroNet TMR or 5009. The existing module number, host and installed coder version are therefore needed to interpret replacement compatibility.

03 PRODUCT FUNCTION

Woodward 5466-1036 is a MicroNet CPU module documented for compatible MicroNet Plus and MicroNet TMR configurations. The installed chassis and project coder release determine which migration path applies. Record whether the installation is MicroNet Plus, MicroNet TMR or 5009 and identify its coder release.

04 SYSTEM COMPATIBILITY

PCN 06960 lists 5466-1035 with the specified Plus coder versions 4.06 through 5.04. PCN 06960 lists 5466-1047 for the specified TMR and 5009 coder versions 5.04 through 5.08.
