PCS 7 AS Runtime License for 100 Process Objects

LICENSE CAPACITY	LICENSE PURPOSE	LICENSE MODEL	LICENSED USERS
100 process objects	**PCS 7 AS Runtime**	**Floating license**	**1**

Siemens 6ES7653-2BA00-0XB5 is a SIMATIC PCS 7 AS Runtime license for 100 process objects. It is a language-neutral floating license for one user. The order represents runtime licensing capacity rather than a CPU, I/O module or hardware expansion card.

01 TECHNICAL DATA

License capacity	100 process objects
License purpose	PCS 7 AS Runtime
License model	Floating license
Licensed users	1
Language	Language-neutral
Physical license delivery	USB flash drive with certificate of license
Software Media Package	Not included
Expansion of existing AS licenses	Supported

Siemens ST PCS 7 catalog, AS Runtime physical-delivery license ordering table, 100 PO entry.

02 ADDITIONAL PRODUCT DATA

The physical delivery includes a license key on a USB flash drive and a certificate of license. The SIMATIC PCS 7 Software Media Package is not included. The catalog identifies this license as an addition to existing PCS 7 automation-system licenses; the 100 PO capacity must be distinguished from the 1000 PO and 10000 PO order variants.

03 PRODUCT FUNCTION

Include the 100 process-object license capacity in the PCS 7 AS licensing calculation for the intended project. Confirm the existing license inventory and required runtime scope in the Siemens engineering and license-management environment.

04 SYSTEM COMPATIBILITY

Handle the USB-delivered license key through the documented Siemens license-management workflow and retain the certificate of license. The USB medium carries the entitlement; it is not itself a PCS 7 controller or a replacement for the software installation media.

05 REFERENCE

Siemens ST PCS 7 catalog, AS Runtime physical-delivery license ordering table, 100 PO entry.
