

Sale Of new parts and new modules of leading brands and manufacturers

You increase the operational safety and lifespan of your machines and of important parts. You minimise the risk of expensive production downtimes and machine standstills.

The aerospace and automotive sectors are two major advanced manufacturing industries. Though they are well established, both are subject to rapid change, influenced by regulations, demand and technological advances.

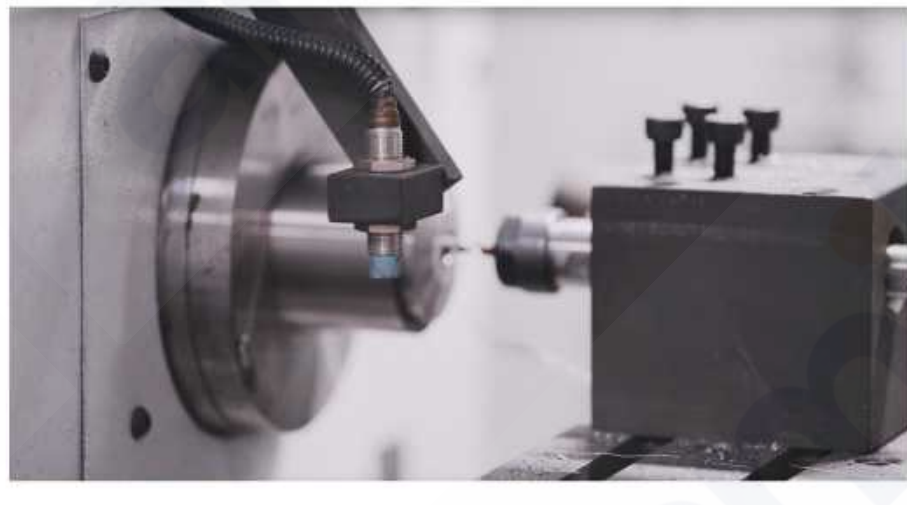

Aerospace & Automotive

Machinery Manufacturing

Legacy equipment is vital to the functioning of most facilities. Nevertheless, with the rapid advancement of automation technologies, manufacturers might think investing in the latest equipment is the smartest choice.

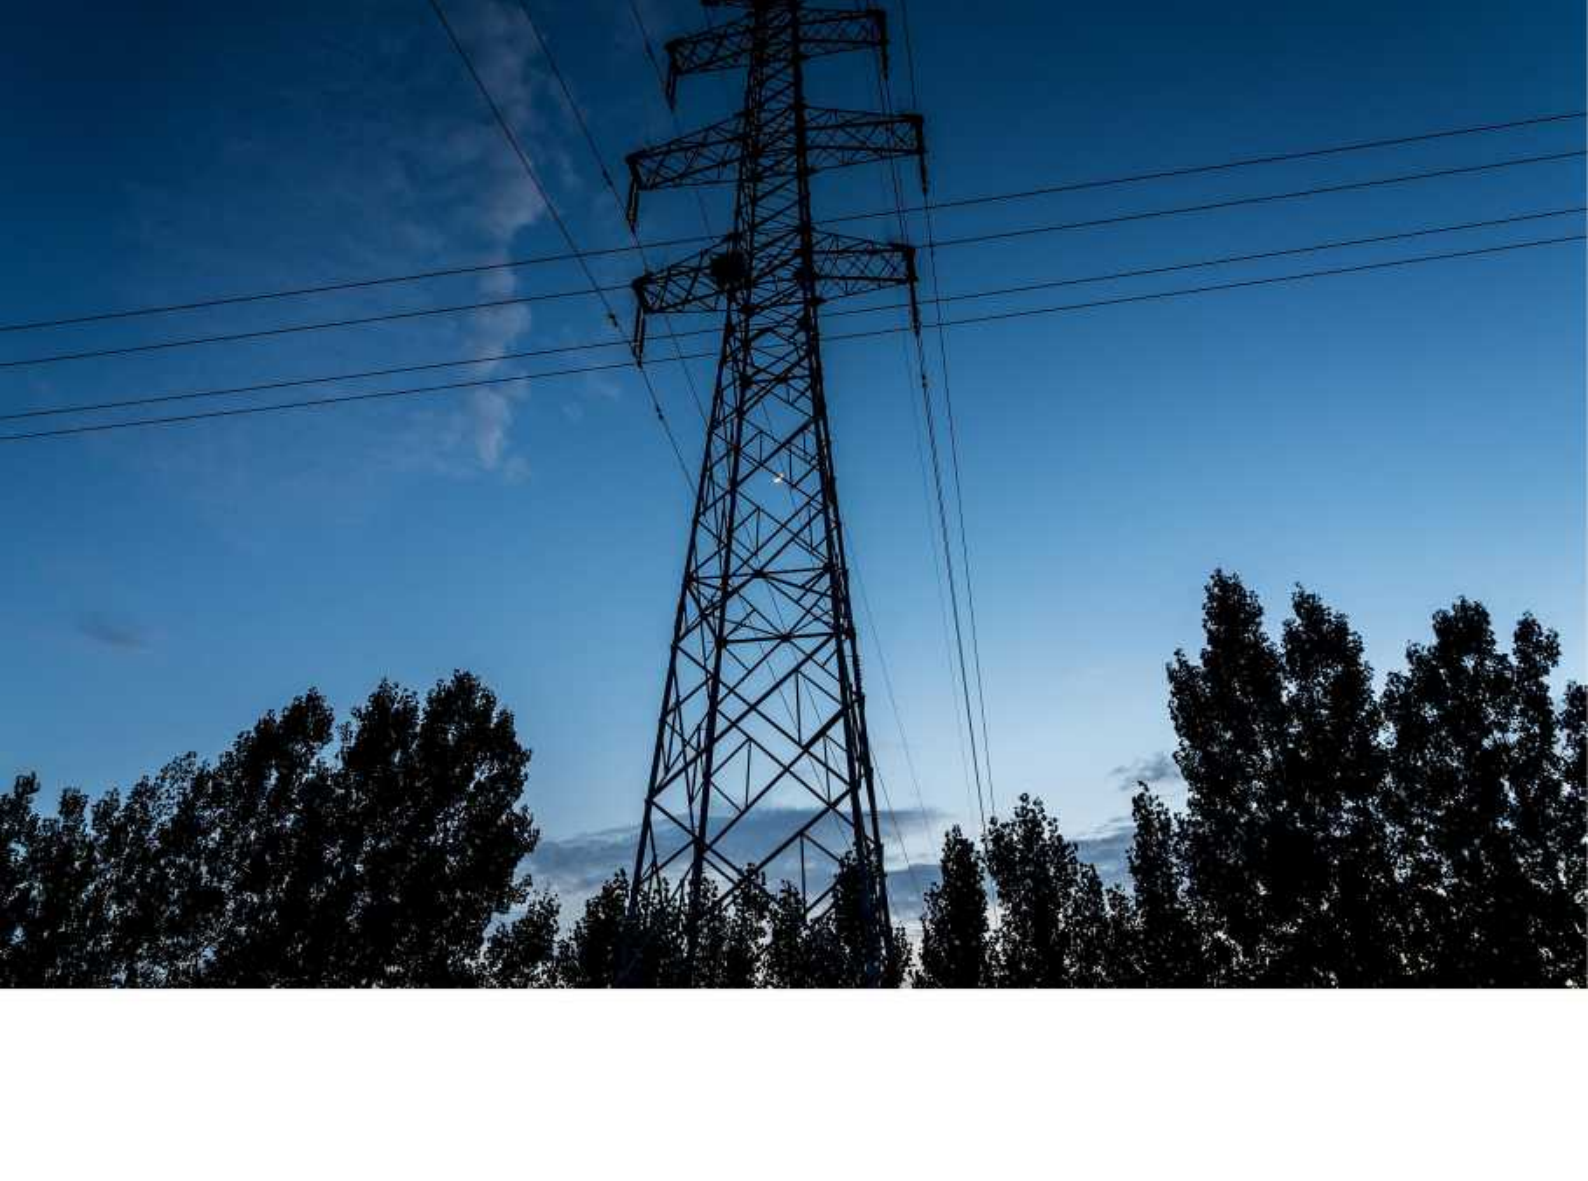

Oil, gas & coal - How our services work for you

The safety of humans and the environment are primary concerns in the extraction and refinement of fossil fuels. To help protect the health of their employees, many decision makers in this sector are now dealing with safety issues by automating processes that used to be carried on manually. As a consequence, the use of automated machinery and other control systems is becoming commonplace in the industry.

Insight into chemical production

An industry that has been around for hundreds of years and that employs hundreds of thousands of people across the globe. The chemical industry shows no signs of slowing down and is only gaining traction. But for how much longer? Here, Amikon Limited explores the past and future of the chemicals industry and whether or not it is sustainable.

We act on all occasions with integrity-with our customers, suppliers, and people in our everyday transactions. We are always ready to engage and provide ideas/insights in a positive and constructive manner.

We care about people and encourage our leaders to engage and motivate the teams and develop 'esprit de corps'. We foster a stimulating environment by being approachable, leveraging interpersonal skills and growing our talent.

We are rigorous in our approach, swift in actions and always achieve success through a meeting or exceeding objectives and delivering to expectations with excellent communication and a 'no surprise culture'.
