Product Data Sheet

Siemens 6EP1332-1SH71

Stabilized Power Supply Module

Siemens 6EP1332-1SH71 is a stabilized power supply module in the SIMATIC S7-1200 PM1207 product family. This summary is based on the exact Siemens article-number data.

01

OFFICIAL PRODUCT PARAMETERS

Article Number	6EP1332-1SH71
Product Designation	PM1207, 24 V DC / 2.5 A
Product Family	SIMATIC S7-1200 PM1207
Input	120/230 V AC, 1-phase
Output	24 V DC / 2.5 A
Frequency	50-60 Hz
Protection	IP20, protection class I
Output behavior	Isolated, short-circuit and no-load proof
Mounting	TH35 rail or wall mounting
Clearance	20 mm above and below

02

LOGISTICS AND LIFECYCLE DATA

Net Weight	0.300 kg
Packaging Dimensions	8.00 x 10.50 x 7.50 cm
Country of Origin	Romania
Commodity Code	85044083
Lifecycle	PM300 Active Product
Quantity unit	1 piece

03

ENGINEERING NOTICE

Verify the complete article number, supported hardware configuration, terminal assignment, electrical limits, enclosure conditions and current Siemens documentation before installation or replacement.
