

SINAMICS PM240

Product Data Sheet

6SL3200-0SP01-0AA0

CIM power supply assembly

FUNCTION CIM power supply assembly	FAMILY SINAMICS PM240	ORIGIN Germany	WEIGHT 3.6 kg
--	---------------------------------	--------------------------	-------------------------

Siemens SINAMICS 6SL3200-0SP01-0AA0 is a CIM power supply assembly for the SINAMICS PM240. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Component Class	CIM PM-IF power supply
Drive Family	SINAMICS PM240
Primary Function	Powers control interface electronics
Power Architecture	Control-interface supply assembly
Voltage Class	PM240 frame-size GX class
Current Rating	Signal and auxiliary supply
Line Frequency	Converter-dependent switching
Power Section	CIM PM-IF section
Mechanical Design	Board and mounting kit
Electrical Interface	PM240 FSGX CIB interface

ADDITIONAL PRODUCT DATA

Cooling Integration	Installed inside power module
Board Protection	Factory electronic assembly
Busbar Treatment	Internal low-voltage distribution
Service Classification	Siemens spare part
Commissioning Check	Verify FSGX mounting arrangement

OFFICIAL APPLICATIONS

- Restore the documented CIM power supply assembly: Use 6SL3200-0SP01-0AA0 for powers control interface electronics only after confirming the complete installed drive designation, voltage class and physical interface.
- Match the PM240 frame-size GX class installation: Compare the nameplate, module position, connectors, cooling arrangement and mating power hardware before removing the existing component.
- Complete model-specific verification: Verify FSGX mounting arrangement. Then energise under the approved Siemens procedure, review diagnostics and test the affected motor or DC-drive function before service.

SYSTEM COMPATIBILITY

Match 6SL3200-0SP01-0AA0 to the installed SINAMICS PM240, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
