

SINAMICS CONVERTER REPAIR PARTS

Product Data Sheet

A5F00111301-008

Inverter control circuit board

FUNCTION	FAMILY	ORIGIN	WEIGHT
Inverter control circuit board	SINAMICS converter repair parts	Germany	0.2 kg

Siemens SINAMICS A5F00111301-008 is a Inverter control circuit board for the SINAMICS converter repair parts. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Component Class	Inverter control circuit board
Drive Family	SINAMICS converter repair parts
Primary Function	Coordinates inverter control signals
Power Architecture	Embedded drive-control electronics
Voltage Class	Installed converter class
Current Rating	Signal-level control paths
Control Supply	24 V DC auxiliary supply
Power Section	Converter control section
Mechanical Design	Plug-in printed-circuit board
Electrical Interface	Internal command and feedback plugs

ADDITIONAL PRODUCT DATA

Cooling Integration	Cabinet ambient cooling
Board Designation	A5F00111301-008 board
Service Role	Drive electronics replacement
Product Status	Siemens service component
Commissioning Check	Match board revision and parameters

OFFICIAL APPLICATIONS

- Use the Inverter control circuit board: Apply A5F00111301-008 for coordinates inverter control signals after matching the exact system, electrical class and installed section.
- Confirm the Installed converter class configuration: Compare the nameplate, board designation, connectors, companion hardware and cooling arrangement before removal.
- Validate the restored equipment: Match board revision and parameters. Review diagnostics and test the affected drive, axis, interface or operator function before return to service.

SYSTEM COMPATIBILITY

Match A5F00111301-008 to the installed SINAMICS converter repair parts, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
