

SINAMICS DCM

# Product Data Sheet

**C98043-A7100-L204**

Coated Advanced CUD board

| FUNCTION                  | FAMILY       | ORIGIN  | WEIGHT |
|---------------------------|--------------|---------|--------|
| Coated Advanced CUD board | SINAMICS DCM | Germany | 0.4 kg |

Siemens SINAMICS C98043-A7100-L204 is a Coated Advanced CUD board for the SINAMICS DCM. The values below are limited to the exact documented article.

01

## VERIFIED TECHNICAL DATA

|                      |                                                       |
|----------------------|-------------------------------------------------------|
| Component Class      | Coated Advanced CUD board                             |
| Drive Family         | SINAMICS DCM                                          |
| Primary Function     | Provides advanced coated DC-drive control electronics |
| Power Architecture   | Advanced CUD platform                                 |
| Voltage Class        | 24 V DC control supply                                |
| Current Rating       | 5 A maximum input                                     |
| Power Section        | CUD control slot                                      |
| Mechanical Design    | Conformal-coated circuit board                        |
| Electrical Interface | 6RY1803-0GA20 connector board                         |
| Commissioning Check  | Restore parameters and assigned I/O                   |

- Service the|coated control slot: Use C98043-A7100-L204 to provides advanced coated dc-drive control electronics in the documented SINAMICS DCM. Match 24 V DC control supply, 5 A maximum input and the installed cud control slot before work.
- Restore the|GA20 connector board: Record 6ry1803-0ga20 connector board, adjacent hardware, cable routing and grounding before removal. Preserve the exact connector orientation and mechanical arrangement while installing the L204 coated CUD.
- Complete the|DCM parameter restore: Restore parameters and assigned I/O. Review Siemens drive diagnostics and record the final L204 coated CUD configuration before returning the affected machine function to service.

Match C98043-A7100-L204 to the installed SINAMICS DCM, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
