

SINAMICS S120 CHASSIS DRIVES

Product Data Sheet

A5E03915589

Drive interface board

FUNCTION Drive interface board	FAMILY SINAMICS S120 chassis drives	ORIGIN Germany	WEIGHT 0.9 kg
-----------------------------------	--	-------------------	------------------

Siemens SINAMICS A5E03915589 is a Drive interface board for the SINAMICS S120 chassis drives. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Component Class	Drive interface board
Product Family	SINAMICS S120 chassis drives
Primary Function	SINAMICS control electronics
Electrical Design	Drive internal signal path
Signal or Power Path	Board-to-board connector system
System Interface	Chassis drive electronic section
Mounting Arrangement	Installed drive assembly
Configuration Reference	Revision-controlled replacement
Replacement Control	Record wiring and companion hardware
Commissioning Check	Run drive diagnostics and functional test

- Apply the drive-section control: Use A5E03915589 for drive-section control only after confirming the documented SINAMICS S120 chassis drives hardware, interfaces and operating conditions.
- Document the connector and board revision: Record connector and board revision, connector orientation, adjacent assemblies and controlled settings before removing the installed Drive interface board.
- Verify the DC-link commissioning: Complete DC-link commissioning with qualified personnel, review diagnostics and retain the final acceptance record before service release.

Match A5E03915589 to the installed SINAMICS S120 chassis drives, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
