

SINAMICS DRIVE SYSTEMS

Product Data Sheet

EBG VHP/2 15R

industrial power resistor assembly

FUNCTION industrial power resistor assembly	FAMILY SINAMICS drive systems	ORIGIN Germany	WEIGHT Confirm before dispatch
--	----------------------------------	-------------------	-----------------------------------

Siemens SINAMICS EBG VHP/2 15R is a industrial power resistor assembly for the SINAMICS drive systems. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Component Class	industrial power resistor assembly
Drive Family	SINAMICS drive systems
Primary Function	Provides the documented industrial power resistor assembly function
Power Architecture	EBG VHP/2 15R industrial architecture
Voltage Class	Installed equipment voltage class
Current Rating	Model-specific channel current
Control Supply	24 V DC control class
Power Section	SINAMICS drive systems service section
Mechanical Design	EBG VHP/2 15R service assembly
Electrical Interface	EBG VHP/2 15R keyed connector set

ADDITIONAL PRODUCT DATA

Cooling Integration	SINAMICS drive systems cooling practice
Board Designation	EBG VHP/2 15R exact designation
Service Role	EBG VHP/2 15R maintenance role
Product Status	EBG VHP/2 15R identity verification
Commissioning Check	Validate EBG VHP/2 15R diagnostics and function

OFFICIAL APPLICATIONS

- Apply the industrial power resistor assembly: Use EBG VHP/2 15R to provide the documented industrial power resistor assembly function within the documented SINAMICS drive systems. Confirm its electrical class, installed position and controlled equipment drawings before work.
- Match the EBG VHP/2 15R keyed connector set: Record connector keying, cable labels, shielding, protective earth and adjacent assemblies. Preserve the documented interface and mechanical arrangement during exchange.
- Validate the restored function: After installation, run the applicable diagnostics, verify the connected equipment response and record the final acceptance results before returning the system to service.

SYSTEM COMPATIBILITY

Match EBG VHP/2 15R to the installed SINAMICS drive systems, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
