|----------------------------------------------------|----------------------------------------------|--------------------------|-------------------------|

Siemens SINAMICS 6SL3352-3AG38-8AA0 is a sinamics power interface module for the SINAMICS S120 drive systems. The values below are limited to the exact documented article.

01

## VERIFIED TECHNICAL DATA

|                   |                                 |
|-------------------|---------------------------------|
| Manufacturer      | Siemens                         |
| Order Number      | 6SL3352-3AG38-8AA0              |
| Product Type      | Sinamics Power Interface Module |
| Product Family    | SINAMICS S120 drive systems     |
| Country of Origin | Germany                         |
| Control Supply    | 24 V DC                         |
| Drive Platform    | SINAMICS S120                   |
| DC Link           | Booksize system class           |
| Communication     | DRIVE-CLiQ                      |
| Mounting          | Drive cabinet                   |

|                      |                                |
|----------------------|--------------------------------|
| Connector Check      | Keying and pin condition       |
| Grounding Check      | Protective earth continuity    |
| Configuration Record | Saved engineering project      |
| Diagnostic Check     | Module status and fault memory |
| Commissioning Test   | Controlled functional test     |

- Use 6SL3352-3AG38-8AA0 in its documented control function: Apply 6SL3352-3AG38-8AA0 in the specified SINAMICS S120 drive systems position and confirm the complete Siemens order number, installed hardware revision, power supply and approved engineering project before service.
- Record the installed interface arrangement: Photograph terminal labels, connector keying, network or signal cabling, shields, protective earth and neighboring modules. Preserve the documented slot and configuration during exchange.
- Test the affected automation function: After fitting 6SL3352-3AG38-8AA0, restore the controlled project, review module diagnostics and test the affected I/O, HMI, network, weighing or drive function at a safe operating point. Record final acceptance results.

Match 6SL3352-3AG38-8AA0 to the installed SINAMICS S120 drive systems, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
