# Product Data Sheet

**Bently Nevada 31000-00-00-15-047-01-02**

External Proximity Probe Housing

| TYPE    | REFERENCE | SCOPE     | OPTIONS     |
|---------|-----------|-----------|-------------|
| Housing | 141610    | See table | Check order |

31000-00-00-15-047-01-02 - External proximity probe housing. Use only the documented component configuration.

01

VERIFIED PRODUCT IDENTITY

|                     |                                      |
|---------------------|--------------------------------------|
| Product model       | 31000-00-00-15-047-01-02             |
| Included probe      | No probe supplied                    |
| Probe cable length  | No probe cable                       |
| Standoff adapter    | 1.5 in                               |
| Nominal penetration | 4.7 in                               |
| Conduit fittings    | One 3/4-14 NPT fitting and two plugs |
| Outer sleeve thread | 3/4-14 NPT                           |
| Housing body        | Glass-reinforced conductive PPS      |

Datasheet 141610 Rev. R. Verify the complete supplied product identity.

02 TECHNICAL DATA

|                                  |                          |
|----------------------------------|--------------------------|
| Probe sleeve and chain           | AISI 304 stainless steel |
| Outer sleeve and exterior screws | AISI 303 stainless steel |
| Housing seal                     | Neoprene O-ring          |

03 APPLICATION AND CONFIGURATION

- Externally accessible bearing measurement
- Keyphasor probe mounting
- Probe adjustment without machine disassembly
- Match documented component and system requirements
- Verify actual product markings before installation

04 OFFICIAL DOCUMENTATION

Datasheet 141610 Rev. R

Selected manufacturer data applies to the identified component and documented conditions. Check the full ordering configuration. Consult the applicable installation instructions before selecting, installing or replacing equipment.
