

SIMATIC AUTOMATION SYSTEMS

Product Data Sheet

6ES7516-3AN00-0AB0

central processing unit module

FUNCTION central processing unit module	FAMILY SIMATIC automation systems	ORIGIN Germany	WEIGHT 0.94 kg
---	---	--------------------------	--------------------------

Siemens SIMATIC S7 6ES7516-3AN00-0AB0 is a central processing unit module for the SIMATIC automation systems. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

HW functional status	FS05
Firmware version	V1.8
Rated value (DC)	24 V
Screen diagonal [cm]	6.1 cm
Number of keys	6
integrated (for program)	1 Mbyte
integrated (for data)	5 Mbyte
Number of ports	2
Interface types Number of ports	1
horizontal installation, min.	0 °C

ADDITIONAL PRODUCT DATA

OFFICIAL APPLICATIONS

- Execute deterministic automation sequences: Use 6ES7516-3AN00-0AB0 for cyclic logic, program execution and distributed I/O coordination in the documented SIMATIC automation systems. Preserve the approved hardware configuration and program backup.
- Connect configured PROFINET or PROFIBUS devices: Maintain the documented network names, addresses, topology and controller interfaces assigned to 6ES7516-3AN00-0AB0. Validate reachable devices before enabling controlled equipment.
- Restore the controller project safely: Load the approved project to 6ES7516-3AN00-0AB0, review diagnostics and test interlocks, I/O updates, alarms and commanded sequences before returning the plant section to service.

SYSTEM COMPATIBILITY

Match 6ES7516-3AN00-0AB0 to the installed SIMATIC automation systems, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
