

SIMATIC S5 AUTOMATION SYSTEMS

Product Data Sheet

6ES5948-3UR23

SIMATIC S5 central processing unit

FUNCTION SIMATIC S5 central processing unit	FAMILY SIMATIC S5 automation systems	ORIGIN Germany	WEIGHT 0.463 kg
---	--	--------------------------	---------------------------

Siemens SIMATIC S5 6ES5948-3UR23 is a SIMATIC S5 central processing unit for the SIMATIC S5 automation systems. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Rated Supply	24 V DC
Mounting	Control cabinet
Protection Class	IP20
System Interface	Backplane bus
Configuration	Manufacturer engineering tool
Operating Mode	Continuous duty
Connection	Keyed industrial connector
Diagnostic State	Status indicators
Commissioning	Controlled functional test
Installation	Rack module

- Execute deterministic automation sequences: Use 6ES5948-3UR23 for cyclic logic, program execution and distributed I/O coordination in the documented SIMATIC S5 automation systems. Preserve the approved hardware configuration and program backup.
- Connect configured PROFINET or PROFIBUS devices: Maintain the documented network names, addresses, topology and controller interfaces assigned to 6ES5948-3UR23. Validate reachable devices before enabling controlled equipment.
- Restore the controller project safely: Load the approved project to 6ES5948-3UR23, review diagnostics and test interlocks, I/O updates, alarms and commanded sequences before returning the plant section to service.

Match 6ES5948-3UR23 to the installed SIMATIC S5 automation systems, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
