ADDITIONAL PRODUCT DATA

OFFICIAL APPLICATIONS

- Display machine status and process values: Use 2711P-RDK10C for the approved PanelView Plus 1000 application screens, status indications and navigation. Restore the correct FactoryTalk View ME project and communication settings.
- Operate configured keypad commands safely: Verify every function, numeric and navigation key assigned to 2711P-RDK10C. Confirm alarms, acknowledgements and commands reach the intended controller tags without unintended equipment movement.
- Validate display and communications: After installing 2711P-RDK10C, test display quality, keypad response, EtherNet/IP or serial communication, user access and the affected machine sequence before production use.

SYSTEM COMPATIBILITY

Match 2711P-RDK10C to the installed PanelView Plus 1000 terminals, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
