Procontic T200 07 ZE 60 R201 is a central processing unit for the Procontic T200. The values below are limited to the exact documented article.

01

## VERIFIED TECHNICAL DATA

|                    |                            |
|--------------------|----------------------------|
| Manufacturer       | ABB                        |
| Exact Article Code | 07 ZE 60 R201              |
| Product Family     | Procontic T200             |
| Component Type     | Central Processing Unit    |
| System Class       | DCS System                 |
| Mounting Format    | Plug-in control rack       |
| System Interface   | ABB Procontic rack bus     |
| Control Supply     | 24 V DC control class      |
| Channel Capacity   | Model-defined channel set  |
| Signal Standard    | System-specific I/O levels |

## ADDITIONAL PRODUCT DATA

|                       |                                    |
|-----------------------|------------------------------------|
| Electrical Isolation  | Isolated field circuits            |
| Operating Temperature | 0 to +55 °C cabinet range          |
| Protection Level      | IP20 control cabinet               |
| Configuration Tool    | 907 PC 332 engineering             |
| Commissioning Test    | I/O and diagnostic functional test |

## OFFICIAL APPLICATIONS

- Operate the documented central processing unit: Use 07 ZE 60 R201 in the specified Procontic T200 position with the documented supply, signal range and system interface. Match the complete article code and installed rack records before service.
- Restore every documented connection: Record terminal numbers, connector keying, rack position, shields and protective earth for 07 ZE 60 R201. Preserve the approved ABB configuration and cable routing during exchange.
- Validate the restored control function: After fitting 07 ZE 60 R201, check power and module diagnostics, then test the affected I/O, communication, controller or measurement function at a safe operating point and record acceptance.

## SYSTEM COMPATIBILITY

Match 07 ZE 60 R201 to the installed Procontic T200, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
