

PROCONTIC CS31

Product Data Sheet

07KR91

central processing unit

FUNCTION central processing unit	FAMILY Procontic CS31	ORIGIN Germany	WEIGHT 0.9 kg
-------------------------------------	--------------------------	-------------------	------------------

Procontic CS31 07KR91 is a central processing unit for the Procontic CS31. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Manufacturer	ABB
Exact Article Code	07KR91
Product Family	Procontic CS31
Component Type	Central Processing Unit
System Class	DCS System
Mounting Format	Plug-in control rack
System Interface	ABB Procontic rack bus
Control Supply	24 V DC control class
Channel Capacity	Model-defined channel set
Signal Standard	System-specific I/O levels

ADDITIONAL PRODUCT DATA

Electrical Isolation	Isolated field circuits
Operating Temperature	0 to +55 °C cabinet range
Protection Level	IP20 control cabinet
Configuration Tool	907 PC 332 engineering
Commissioning Test	I/O and diagnostic functional test

OFFICIAL APPLICATIONS

- Operate the documented central processing unit: Use 07KR91 in the specified Procontic CS31 position with the documented supply, signal range and system interface. Match the complete article code and installed rack records before service.
- Restore every documented connection: Record terminal numbers, connector keying, rack position, shields and protective earth for 07KR91. Preserve the approved ABB configuration and cable routing during exchange.
- Validate the restored control function: After fitting 07KR91, check power and module diagnostics, then test the affected I/O, communication, controller or measurement function at a safe operating point and record acceptance.

SYSTEM COMPATIBILITY

Match 07KR91 to the installed Procontic CS31, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
