

ABB ACCURAY

Product Data Sheet

086363-001

industrial control module

FUNCTION industrial control module	FAMILY ABB Accuray	ORIGIN Germany	WEIGHT 0.2 kg
---------------------------------------	-----------------------	-------------------	------------------

ABB Accuray 086363-001 is a industrial control module for the ABB Accuray. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Manufacturer	ABB
Exact Article Code	086363-001
Product Family	ABB Accuray
Component Type	Industrial Control Module
System Class	DCS System
Mounting Format	Plug-in control rack
System Interface	ABB Accuray rack interface
Control Supply	24 V DC control class
Channel Capacity	Model-defined channel set
Signal Standard	System-specific I/O levels

ADDITIONAL PRODUCT DATA

Electrical Isolation	Isolated field circuits
Operating Temperature	0 to +55 °C cabinet range
Protection Level	Cabinet-installed module
Configuration Tool	Accuray system configuration
Commissioning Test	I/O and diagnostic functional test

OFFICIAL APPLICATIONS

- Operate the documented industrial control module: Use 086363-001 in the specified ABB Accuray position with the documented supply, signal range and system interface. Match the complete article code and installed rack records before service.
- Restore every documented connection: Record terminal numbers, connector keying, rack position, shields and protective earth for 086363-001. Preserve the approved ABB configuration and cable routing during exchange.
- Validate the restored control function: After fitting 086363-001, check power and module diagnostics, then test the affected I/O, communication, controller or measurement function at a safe operating point and record acceptance.

SYSTEM COMPATIBILITY

Match 086363-001 to the installed ABB Accuray, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
