

MNSIS SERIES

Product Data Sheet

1TGE102009R1001

industrial AC motor

FUNCTION industrial AC motor	FAMILY MNSiS Series	ORIGIN Germany	WEIGHT 0.8 kg
---------------------------------	------------------------	-------------------	------------------

MNSiS Series 1TGE102009R1001 is a industrial AC motor for the MNSiS Series. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Manufacturer	ABB
Exact Article Code	1TGE102009R1001
Product Family	MNSiS Series
Component Type	Industrial Ac Motor
System Class	DCS System
Mounting Format	Plug-in control rack
System Interface	MNS iS internal bus
Control Supply	24 V DC control supply
Channel Capacity	Model-defined channel set
Signal Standard	System-specific I/O levels

ADDITIONAL PRODUCT DATA

Electrical Isolation	Isolated field circuits
Operating Temperature	0°C to +55°C
Protection Level	Motor-control-center section
Configuration Tool	MNS iS engineering tools
Commissioning Test	I/O and diagnostic functional test

OFFICIAL APPLICATIONS

- Operate the documented industrial AC motor: Use 1TGE102009R1001 in the specified MNSiS Series position with the documented supply, signal range and system interface. Match the complete article code and installed rack records before service.
- Restore every documented connection: Record terminal numbers, connector keying, rack position, shields and protective earth for 1TGE102009R1001. Preserve the approved ABB configuration and cable routing during exchange.
- Validate the restored control function: After fitting 1TGE102009R1001, check power and module diagnostics, then test the affected I/O, communication, controller or measurement function at a safe operating point and record acceptance.

SYSTEM COMPATIBILITY

Match 1TGE102009R1001 to the installed MNSiS Series, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
