

SERIES 200

Product Data Sheet

200-ACN

industrial network adapter

FUNCTION industrial network adapter	FAMILY Series 200	ORIGIN Germany	WEIGHT 0.2 kg
--	----------------------	-------------------	------------------

Series 200 200-ACN is a industrial network adapter for the Series 200. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Manufacturer	ABB
Exact Article Code	200-ACN
Product Family	Series 200
Component Type	Industrial Network Adapter
System Class	DCS System
Mounting Format	Plug-in control rack
System Interface	Series 200 I/O bus
Control Supply	24 V DC I/O supply
Channel Capacity	Model-defined channel set
Signal Standard	System-specific I/O levels

ADDITIONAL PRODUCT DATA

Electrical Isolation	Isolated field circuits
Operating Temperature	0 to +55 °C cabinet range
Protection Level	IP20 control cabinet
Configuration Tool	Advant engineering tools
Commissioning Test	I/O and diagnostic functional test

OFFICIAL APPLICATIONS

- Operate the documented industrial network adapter: Use 200-ACN in the specified Series 200 position with the documented supply, signal range and system interface. Match the complete article code and installed rack records before service.
- Restore every documented connection: Record terminal numbers, connector keying, rack position, shields and protective earth for 200-ACN. Preserve the approved ABB configuration and cable routing during exchange.
- Validate the restored control function: After fitting 200-ACN, check power and module diagnostics, then test the affected I/O, communication, controller or measurement function at a safe operating point and record acceptance.

SYSTEM COMPATIBILITY

Match 200-ACN to the installed Series 200, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
