

3300 SYSTEM

Product Data Sheet

88286-02E

monitoring interface module

FUNCTION monitoring interface module	FAMILY 3300 System	ORIGIN United States	WEIGHT 0.5 kg
--	------------------------------	--------------------------------	-------------------------

3300 System 88286-02E is a monitoring interface module for the 3300 System. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Exact Part Number	88286-02E
Product Family	3300 System
Component Type	Monitoring Interface Module
Channel Capacity	2 channels
Rack Space	One full-height slot
Backplane Supply	3500/3300 rack power
Input Type	Condition-monitoring transducer
Alarm Outputs	Alert and Danger levels
Status LEDs	OK, TX/RX and Bypass
Buffered Output	Front-panel transducer signal

Configuration	Rack configuration software
Relay Logic	Programmable alarm voting

- Apply the documented monitoring interface module: Use 88286-02E in the documented 3300 System measurement or protection channel. Match the exact order code, installed position, signal range and monitored machine function before work.
- Restore the recorded monitoring interface module connections: Photograph terminals, coaxial connectors, shields, earth points, rack slot and adjacent hardware before removing 88286-02E. Restore each connection to the controlled drawing.
- Validate the complete monitoring interface module signal path: After installing 88286-02E, check transducer supply, gap or zero, signal response, alarms and rack diagnostics. Record the measured values before releasing the machine channel.

Match 88286-02E to the installed 3300 System, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
