

3300 XL PROXIMITY SYSTEM

Product Data Sheet

86517-XX-XX-01-02 Mod: 159840-1

accelerometer interface module

FUNCTION	FAMILY	ORIGIN	WEIGHT
accelerometer interface module	3300 XL proximity system	United States	Confirm before dispatch

Bently Nevada 86517-XX-XX-01-02 Mod: 159840-1 is a accelerometer interface module for the 3300 XL proximity system. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Exact Part Number	86517-XX-XX-01-02 Mod: 159840-1
Product Family	3300 XL proximity system
Component Type	Accelerometer Interface Module
Approval Selection	Multi-approval option -02
Order Code Groups	8 groups
Input Device	3300 series accelerometer
Interface Channels	Two transducer channels
Supply Connection	3300 monitor rack supply
Field Wiring	Shielded twisted-pair cable
Housing Option	Weatherproof interface enclosure

ADDITIONAL PRODUCT DATA

OFFICIAL APPLICATIONS

- Installed identification: Match 86517-XX-XX-01-02 Mod: 159840-1 to the documented 3300 XL proximity system order code and installed measurement channel.
- Controlled connection: Record the connector, shield, cable route and companion hardware before removing 86517-XX-XX-01-02 Mod: 159840-1.
- Commissioning check: Verify the complete signal path and approval marking before returning 86517-XX-XX-01-02 Mod: 159840-1 to service.

SYSTEM COMPATIBILITY

Match 86517-XX-XX-01-02 Mod: 159840-1 to the installed 3300 XL proximity system, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
