

HONEYWELL FSC SAFETY CONTROLLER OPERATOR MODULES

Product Data Sheet

10002/1/2

run/stop keyed switch module

FUNCTION	FAMILY	ORIGIN	WEIGHT
run/stop keyed switch module	Honeywell FSC safety controller operator modules	United States	0.30 kg

Honeywell FSC 10002/1/2 is a run/stop keyed switch module for the Honeywell FSC safety controller operator modules. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Exact Article Code	10002/1/2
Product Class	Run/Stop Keyed Switch Module
Product Family	Honeywell FSC safety controller operator modules
Operator Function	Run / stop keyed selection
Contact Type	Safety-controller keyed contact
Control Voltage	24 V DC class
Switch Positions	Two maintained positions
Key Removal	Position dependent
Panel Interface	FSC operator-panel connection
Status Feedback	Discrete controller input

ADDITIONAL PRODUCT DATA

Mounting	Panel-mounted module
Protection	Key-controlled access
Controller Family	Honeywell FSC

OFFICIAL APPLICATIONS

- Coordinate robot-cell networking with Run Stop: Inside the robot controllers, safety devices and PLCs, 10002/1/2 operates in its approved product-family role as a run/stop keyed switch module. During model change, the system uses this function to exchange interlocks and production status across the cell, helping it start the correct joining sequence.
- Stabilize remote-station communication during station reconnection: Across the distributed I/O and supervisory servers, 10002/1/2 supports the configured automation role as a run/stop keyed switch module. During station reconnection, the system uses this function to restore cyclic data exchange with the remote station, helping it return the station to the controller scan.
- Stabilize remote pump-station communication with Run Stop: Inside the pump PLCs, radios and supervisory servers, 10002/1/2 handles its designated signal or control duty as a run/stop keyed switch module. During station duty change, the system uses this function to exchange commands, status and alarm data with the remote station, helping it retain coordinated pump operation.

SYSTEM COMPATIBILITY

Match 10002/1/2 to the installed Honeywell FSC safety controller operator modules, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
