

ABB ADVANT OCS AND ADVANT-800XA

Product Data Sheet

3BSE022256R1

mounting panel - prefabricated aluminum profile

FUNCTION	FAMILY	ORIGIN	WEIGHT
mounting panel - prefabricated aluminum	ABB Advant OCS and Advant-800xA	Switzerland	0.80 kg

ABB Advant OCS and Advant-800xA 3BSE022256R1 is a mounting panel - prefabricated aluminum profile for the ABB Advant OCS and Advant-800xA. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Exact Article Code	3BSE022256R1
Product Family	ABB Advant OCS and Advant-800xA
Component Type	Mounting Panel - Prefabricated Aluminum Profile
Assembly Class	ABB PCB assembly
System Interface	ABB Advant OCS and Advant-800xA control interface
Control Supply	Documented rack control supply
Connector Interface	Keyed ABB board connectors
Installation Format	Plug-in control board
Signal Domain	Control and diagnostic signals
Service Position	Documented rack slot

Configuration Basis	Installed ABB hardware list
Replacement Basis	Exact article and board revision
Protective Check	ESD and protective-earth control
Commissioning Check	Power-up diagnostics and function test
Maintenance Identity	3BSE022256R1 controlled service identity

- Maintain utility distribution with Mounting Panel: At the control layer of the steam, cooling and instrument-air headers, 3BSE022256R1 serves its documented function as a mounting panel - prefabricated aluminum profile. During utility constraint, the system uses this function to prioritize process users from measured demand, helping it protect production continuity during the constraint.
- Track terminal transfer with Mounting Panel process control: During operation of the loading pumps and metering runs, 3BSE022256R1 serves its documented function as a mounting panel - prefabricated aluminum profile. During transfer start, the system uses this function to prove the flow path before product movement, helping it start transfer with the intended containment path.
- Regulate paper-machine draws with Mounting Panel: At the control layer of the press rolls and sectional drives, 3BSE022256R1 serves its documented function as a mounting panel - prefabricated aluminum profile. During sheet threading, the system uses this function to maintain speed ratios between machine sections, helping it protect sheet tension during acceleration.

Match 3BSE022256R1 to the installed ABB Advant OCS and Advant-800xA, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
