Siemens SCALANCE 6GK5622-2GS00-2AC2 is a industrial security appliance for the SCALANCE SC-600 security appliances. The values below are limited to the exact documented article.

01

## VERIFIED TECHNICAL DATA

|                      |                        |
|----------------------|------------------------|
| Product Designation  | SCALANCE SC622-2C      |
| RJ45 Ports           | 2                      |
| SFP Slots            | 2 combo ports          |
| Security Function    | Routing firewall       |
| Static IP Routing    | Supported              |
| IPv6 Routing         | Supported              |
| VRRP Protocol        | Supported              |
| Management Access    | HTTPS, CLI and SNMP    |
| Secure File Transfer | SFTP supported         |
| Address Services     | DHCP client and server |

## ADDITIONAL PRODUCT DATA

|                       |                      |
|-----------------------|----------------------|
| Logging               | Syslog and audit log |
| PROFINET Class        | Conformity Class A   |
| Rated Supply          | 24 V DC              |
| Protection Degree     | IP20                 |
| Operating Temperature | -40 to +70 °C        |

## OFFICIAL APPLICATIONS

- Process Units and Segmented Control Networks: Protected process communications
- Generation Units and Remote Service Networks: Secured plant connectivity
- Treatment Plants and Remote Station Networks: Protected utility access

## SYSTEM COMPATIBILITY

Match 6GK5622-2GS00-2AC2 to the installed SCALANCE SC-600 security appliances, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
