CPU 1515SP PC controller

FUNCTION CPU 1515SP PC controller	FAMILY SIMATIC ET 200SP Open Controllers	ORIGIN Germany	WEIGHT 0.50 kg
---	--	--------------------------	--------------------------

Siemens Simatic S7 6ES7677-2AA40-0AA0 is a CPU 1515SP PC controller for the SIMATIC ET 200SP Open Controllers. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Product Type	CPU 1515SP PC
Hardware Variant	WES7 P 64-bit
System Memory	4 GB RAM
Delivery Configuration	Spare part without CFast card
Mounting Standard	EN 60715 mounting rail
PROFINET Connection	BusAdapter required
BusAdapter Options	2 x RJ45 or 2 x FastConnect
Ethernet MAC Addresses	4 assigned addresses
Server Module	Included
Controller Platform	SIMATIC ET 200SP Open Controller

- Air and Chilled Water Plants for Cpu 1515Sp Pc: Building Utility Systems
- Propulsion and Utility Machinery for Cpu 1515Sp Pc: Marine Automation Systems
- Kiln and Material Lines for Cpu 1515Sp Pc: Cement Production Systems

Match 6ES7677-2AA40-0AA0 to the installed SIMATIC ET 200SP Open Controllers, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
