

CONTROLEDGE HC900 I/O SCANNERS

Product Data Sheet

900C73R-0100-44

two-port I/O scanner module

FUNCTION	FAMILY	ORIGIN	WEIGHT
two-port I/O scanner module	ControlEdge HC900 I/O scanners	United States	0.50 kg

ControlEdge HC900 900C73R-0100-44 is a two-port I/O scanner module for the ControlEdge HC900 I/O scanners. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Module Type	Two-port I/O scanner
Controller Platform	ControlEdge HC900
Rack Position	One per I/O rack
Network Ports	2
System Role	I/O rack communications
Redundancy Support	Redundant controller systems
Safety Version	Non-SIL
Compatibility Rule	Revision codes must match

- Boiler and Turbine I/O Racks: Plant I/O Systems
- Reactor and Utility Control Racks: Process I/O Systems
- Batch and Packaging Control Racks: Production I/O Systems

Match 900C73R-0100-44 to the installed ControlEdge HC900 I/O scanners, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
