Siemens SCALANCE 6GK5208-0HA10-2AA6 is a managed Ethernet switch for the SCALANCE X. The values below are limited to the exact documented article.

01

## VERIFIED TECHNICAL DATA

|                    |                                |
|--------------------|--------------------------------|
| Device Designation | SCALANCE X208PRO               |
| Ethernet Ports     | 8 network connections          |
| Transfer Rate      | 10 / 100 Mbit/s                |
| Port Connector     | Industrial M12 Ethernet        |
| Power Inputs       | 2 redundant supply connections |
| Signaling Contact  | 1 fault output                 |
| Supply Voltage     | 24 V DC nominal                |
| Management         | Managed Layer 2 operation      |
| Redundancy         | Ring redundancy supported      |
| Diagnostics        | Port and device diagnostics    |

## ADDITIONAL PRODUCT DATA

---

|                  |                               |
|------------------|-------------------------------|
| Installation     | Field-level mounting          |
| Network Function | Industrial Ethernet switching |

## OFFICIAL APPLICATIONS

---

- Paint shop and body transfer lines: Process Control Systems
- Ore conveying and screening stations: Plant Utility Systems
- Pulp washing and bleaching plants: Equipment Monitoring Systems

## SYSTEM COMPATIBILITY

---

Match 6GK5208-0HA10-2AA6 to the installed SCALANCE X, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
