Product Data Sheet

IC200SET001-HE

serial-to-Ethernet adapter

FUNCTION serial-to-Ethernet adapter	FAMILY VersaMax communications	ORIGIN United States	WEIGHT 0.80 kg
---	--	--------------------------------	--------------------------

GE VersaMax IC200SET001-HE is a serial-to-Ethernet adapter for the VersaMax communications. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Ethernet Rate	10/100 Mbit/s
Ethernet Connector	RJ45
Serial Connector	RJ45 RS-232
Terminal Serial Port	RS-232 or RS-485/422
Input Voltage	9 to 30 V DC or 24 V AC
Maximum Power	3 W
Default Firmware	SRTP/SNP
Optional Protocols	Modbus TCP/RTU and pass-through
Serial Port Use	One port at a time
PLC Compatibility	VersaMax Micro, Micro PLUS and Nano

- Refinery separation and storage areas for serial-to-Ethernet adapter: Drive Coordination Systems
- Solvent recovery and dosing rooms for serial-to-Ethernet adapter: Quality Inspection Systems
- Sterile filling and packaging cells for serial-to-Ethernet adapter: Process Control Systems

Match IC200SET001-HE to the installed VersaMax communications, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
