

DIODE FAILURE DETECTION BOARD

Product Data Sheet

UNS0864 HIEE405227R0001 UNS0864B-P V1

diode failure detection board

FUNCTION diode failure detection board	FAMILY diode failure detection board	ORIGIN Switzerland	WEIGHT See quotation
--	--	------------------------------	--------------------------------

ABB UNS0864 HIEE405227R0001 UNS0864B-P V1 is a diode failure detection board for the diode failure detection board. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Board Function	Diode failure detection
System Family	UNITROL excitation
Signal Type	Failure status
Monitoring Target	Excitation diode bridge
Diagnostics	Board status indication
Mounting Context	Excitation cabinet
Service Access	Panel mounted
Replacement Check	Article code and revision

- Control and protection cabinets: Equipment Control Systems
- Process monitoring and drive systems: Process Interface Systems
- Machine and panel automation: Industrial Control Systems

Match UNS0864 HIEE405227R0001 UNS0864B-P V1 to the installed diode failure detection board, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
