

FOXBORO PNEUMATIC CONTROLLERS

Product Data Sheet

43AP-FA42C

Pneumatic indicating controller

FUNCTION	FAMILY	ORIGIN	WEIGHT
Pneumatic indicating controller	Foxboro pneumatic controllers	United States	5.62 kg

Foxboro 43AP-FA42C is a Pneumatic indicating controller for the Foxboro pneumatic controllers. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Controller Type	Pneumatic indicating
Control Mode	Local process control
Signal Medium	Instrument air
Display Type	Analog indicator
Mounting	Panel installation
Process Function	Setpoint regulation
Output Type	Pneumatic control signal
Operating Duty	Continuous service

- Gas compression control stations: Distributed Control Systems
- Reactor and blending control units: Process Control Platforms
- Boiler and turbine control rooms: Plant Automation Systems

Match 43AP-FA42C to the installed Foxboro pneumatic controllers, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
