

SINUMERIK 828D CONTROLS

Product Data Sheet

6FC5370-0AA00-2BA0

CNC operator control unit

FUNCTION	FAMILY	ORIGIN	WEIGHT
CNC operator control unit	SINUMERIK 828D controls	Germany	5.15 kg

Siemens Sinumerik 6FC5370-0AA00-2BA0 is a CNC operator control unit for the SINUMERIK 828D controls. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Control Family	SINUMERIK 828D
Panel Format	Operator control unit
Display Interface	Integrated operator display
Machine Interface	PROFINET-based I/O
USB Interface	USB 2.0
Ethernet Interface	Industrial Ethernet
Storage Media	CompactFlash
Supply Voltage	24 V DC
Mounting	Panel installation
Control Function	CNC machine operation

- Crushing and Grinding Plants: Mineral Processing Systems
- Boiler and Turbine Control Stations: Generation Control Systems
- Reactor and Separation Units: Process Control Systems

Match 6FC5370-0AA00-2BA0 to the installed SINUMERIK 828D controls, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
