

SERIES 90-30 DISCRETE I/O

Product Data Sheet

IC693MDL730

eight-point DC output module

FUNCTION eight-point DC output module	FAMILY Series 90-30 discrete I/O	ORIGIN United States	WEIGHT 0.80 kg
--	-------------------------------------	-------------------------	-------------------

GE 90-30 Series PLC IC693MDL730 is a eight-point DC output module for the Series 90-30 discrete I/O. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Output Points	8
Nominal Voltage	12/24 V DC
Output Range	12 to 24 V DC
Output Current	2 A per point
Group Current	8 A maximum
Output Groups	1 group of 8
On Response	2 ms maximum
Backplane Current	55 mA at 5 V DC
Protection	Fused common

- Batch preparation and transfer areas: Process Control Systems
- Raw water intake and pumping stations: Plant Utility Systems
- Boiler feed and auxiliary plants: Equipment Monitoring Systems

Match IC693MDL730 to the installed Series 90-30 discrete I/O, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
