

GAUGE PRESSURE (PRESSURE SERIES)

Product Data Sheet

7MF03401DM015AF2-Z

pressure transmitter

FUNCTION pressure transmitter	FAMILY Gauge pressure (pressure series)	ORIGIN France	WEIGHT 1 kg
---	---	-------------------------	-----------------------

Siemens Simatic S7 7MF03401DM015AF2-Z is a pressure transmitter for the Gauge pressure (pressure series). The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Transmitter Family	SITRANS P320
Measured Variable	Gauge pressure
Output Signal	4 to 20 mA HART
Power Supply	10.5 to 45 V DC
Accuracy	0.065%
Turn-Down Ratio	100:1
Process Connection	Threaded pressure connection
Housing Material	Die-cast aluminum
Display	Local digital display
Protection Degree	IP66/IP68

- Batch preparation and transfer areas: Process Control Systems
- Raw water intake and pumping stations: Plant Utility Systems
- Boiler feed and auxiliary plants: Equipment Monitoring Systems

Match 7MF03401DM015AF2-Z to the installed Gauge pressure (pressure series), complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
