

SERIES 90-30 POWER SUPPLIES

# Product Data Sheet

## IC693PWR330J

AC/DC high-capacity power supply

|                                              |                                       |                         |                   |
|----------------------------------------------|---------------------------------------|-------------------------|-------------------|
| FUNCTION<br>AC/DC high-capacity power supply | FAMILY<br>Series 90-30 power supplies | ORIGIN<br>United States | WEIGHT<br>0.80 kg |
|----------------------------------------------|---------------------------------------|-------------------------|-------------------|

GE 90-30 Series PLC IC693PWR330J is a AC/DC high-capacity power supply for the Series 90-30 power supplies. The values below are limited to the exact documented article.

01

## VERIFIED TECHNICAL DATA

|                       |                          |
|-----------------------|--------------------------|
| Nominal Input         | 120/240 V AC or 125 V DC |
| AC Input Range        | 85 to 264 V AC           |
| DC Input Range        | 100 to 300 V DC          |
| Total Output          | 30 W                     |
| +5 V Capacity         | 30 W maximum             |
| +24 V Relay Output    | 0.8 A maximum            |
| Isolated +24 V Output | 0.5 A maximum            |
| Hold-Up Time          | 20 ms minimum            |
| Inrush Current        | 4 A peak                 |
| Status Output         | Power supply OK relay    |

- Warehouse sorting and conveyor zones: Machine Control Systems
- Cargo handling and loading berths: Facility Automation Systems
- Kiln feed and material processing lines: Remote Station Systems

Match IC693PWR330J to the installed Series 90-30 power supplies, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
