

TOSHIBA INDUSTRIAL PROCESS I/O

Product Data Sheet

CM01 EC351CM0111

process I/O control unit

FUNCTION process I/O control unit	FAMILY Toshiba industrial process I/O	ORIGIN Japan	WEIGHT 0.60 kg
---	---	------------------------	--------------------------

Toshiba CM01 EC351CM0111 is a process I/O control unit for the Toshiba industrial process I/O. The values below are limited to the exact documented article.

01

VERIFIED TECHNICAL DATA

Module designation	CM01
Catalog code	EC351CM0111
Board assembly	4Z8C0184P001
Equipment code	033510649
Primary bus	EC BUS/H
IO bus	I/O BUS
Control role	Process I/O control unit
Label origin	Made in Japan

- Legacy plant I/O cabinet maintenance: Distributed Control Systems
- Process unit control cabinet service: Process I/O Systems
- Installed Toshiba control system support: Plant Automation Systems

Match CM01 EC351CM0111 to the installed Toshiba industrial process I/O, complete wiring, mating hardware, revision and approved configuration. A similar article number does not establish direct interchangeability.
