OC 6000E

Product Data Sheet

BDO11 369B1874G5002

Digital output connection base

MARKED SUPPLY VOLTAGE	NETWORK CONNECTION HARDWARE	MODULE MATING INTERFACE	FIELD-CABLE INTERFACE
24 V DC	**2 shielded RJ45 sockets**	**3 multipole board receptacles**	**1 female D-sub connector**

General Electric BDO11 369B1874G5002 is a digital-output connection base for compatible OC 6000e output electronics and their external relay interface. It provides the mating and cable-connection hardware used by configured discrete-output assemblies in industrial power and process-control installations.

01 VERIFIED TECHNICAL DATA

Marked supply voltage	24 V DC
Network connection hardware	2 shielded RJ45 sockets
Module mating interface	3 multipole board receptacles
Field-cable interface	1 female D-sub connector
Chassis fixing points	4 panel mounting holes
Module retention	2 rotary locking cams
Grounding connection	1 protective-earth clamping point
Rail retention	Spring-latch DIN rail fixing

Values follow the unit photographs and applicable documentation identified on page 2.

02 ADDITIONAL PRODUCT DATA

Naked product size	17.30 x 12.50 x 4.00 cm
Naked product weight	0.35kg

03 DOCUMENTED USE SETTINGS

Chemical Manufacturing and Petrochemical Production: Industrial Chemical Manufacturing.

Electric Power Production and Industrial Heating: Thermal Electric Power Production.

Petroleum Production and Natural Gas Processing: Oil Production and Processing.

04 SYSTEM COMPATIBILITY

General Electric BDO11 369B1874G5002 is a digital-output connection base for compatible OC 6000e output electronics and their external relay interface. It provides the mating and cable-connection hardware used by configured discrete-output assemblies in industrial power and process-control installations.

05 PRODUCT EVIDENCE

Exact-unit nameplate and connector photographs; GE OC 6000e platform overview, I/O interfaces
