

OC 6000E

# Product Data Sheet

**MDO11 369B1844G5002**

16-channel digital output module

| NOMINAL MODULE SUPPLY        | POWER INDICATION | OPERATING INDICATION | FAULT INDICATION             |
|------------------------------|------------------|----------------------|------------------------------|
| 24 V DC, OC 6000e I/O family | 1 Power LED      | 1 Run LED            | 2 LEDs: Int Error / Ext Fail |

General Electric MDO11 369B1844G5002 is a 16-channel digital output module in the OC 6000e I/O family for providing discrete commands to compatible industrial output interfaces.

01

## VERIFIED TECHNICAL DATA

|                         |                              |
|-------------------------|------------------------------|
| Nominal module supply   | 24 V DC, OC 6000e I/O family |
| Power indication        | 1 Power LED                  |
| Operating indication    | 1 Run LED                    |
| Fault indication        | 2 LEDs: Int Error / Ext Fail |
| Network indication      | 2 LEDs: Tx/Rx A / Tx/Rx B    |
| Module retention        | 2 rotary locking tabs        |
| Digital output channels | 16                           |
| Channel indication      | 16 numbered LEDs             |

## ADDITIONAL PRODUCT DATA

---

|                      |                         |
|----------------------|-------------------------|
| Naked product size   | 7.00 x 13.20 x 15.20 cm |
| Naked product weight | 0.50kg                  |

## DOCUMENTED USE SETTINGS

---

Industrial Chemical and Petrochemical Production: Industrial Chemical Manufacturing.

Petroleum Production and Natural Gas Processing: Oil Production and Processing.

Electric Power Generation and Heat Production: Thermal Electric Power Generation.

## SYSTEM COMPATIBILITY

---

General Electric MDO11 369B1844G5002 is a 16-channel digital output module in the OC 6000e I/O family for providing discrete commands to compatible industrial output interfaces.
