OC 6000E

Product Data Sheet

MVP10 369B1848G5001

Valve position control module

NOMINAL MODULE SUPPLY	POWER INDICATION	OPERATING INDICATION	FAULT INDICATION
24 V DC, OC 6000e I/O family	**1 Power LED**	**1 Run LED**	**2 LEDs: Int Error / Ext Fail**

General Electric MVP10 369B1848G5001 is a valve position control module in the OC 6000e I/O family for supporting valve-position control in compatible turbine and process-control configurations.

01 VERIFIED TECHNICAL DATA

Nominal module supply	24 V DC, OC 6000e I/O family
Power indication	1 Power LED
Operating indication	1 Run LED
Fault indication	2 LEDs: Int Error / Ext Fail
Network indication	2 LEDs: Tx/Rx A / Tx/Rx B
Module retention	2 rotary locking tabs
Numbered channel indicators	4
Marked control current	40 mA

Values follow the unit photographs and applicable documents identified on page 2.

02 ADDITIONAL PRODUCT DATA

Naked product size	7.00 x 13.20 x 15.20 cm
Naked product weight	0.65kg

03 DOCUMENTED USE SETTINGS

Electric Power Generation and Heat Production: Thermal Electric Power Generation.

Industrial Chemical and Petrochemical Production: Industrial Chemical Manufacturing.

Petroleum Production and Natural Gas Processing: Oil Production and Processing.

04 SYSTEM COMPATIBILITY

General Electric MVP10 369B1848G5001 is a valve position control module in the OC 6000e I/O family for supporting valve-position control in compatible turbine and process-control configurations.

05 PRODUCT EVIDENCE

Exact-unit photographs and independently checked product information
