02 TECHNICAL INFORMATION CONTINUED

Interface network role	Slave interface connecting ET 200M to PROFIBUS DP
Active bus module function	Accommodates two IM 153-2 High Feature interfaces for a redundant arrangement

03 SOURCE AND CONFIGURATION CHECKS

The included interface type connects ET 200M to PROFIBUS DP as a slave interface, while the active bus module accommodates the two interfaces. Use the complete bundle order number when specifying this set, and distinguish it from an individually ordered interface.

Packed dimensions and supplied-unit origin must be checked against the actual delivery. No verified gross shipping weight is inferred from module net mass.
