Siemens 6ES7288-6EC01-0AA0

One-Meter I/O Expansion Cable

CABLE LENGTH	CONNECTORS	SYSTEM LIMIT	PURPOSE
1 m	**Male and female**	**One per CPU**	**I/O bus expansion**

Siemens 6ES7288-6EC01-0AA0 is the one-meter I/O expansion cable listed for S7-200 SMART. Its male and female bus connectors connect separated parts of the expansion arrangement, allowing a documented alternative to positioning every connected module directly beside the preceding device.

01 VERIFIED TECHNICAL INFORMATION

Cable length	1 m
Connector arrangement	Male and female I/O-bus connectors

Manufacturer evidence: S7-200 SMART System Manual; exact-model manual section.

02 TECHNICAL INFORMATION CONTINUED

Maximum per CPU system	1 expansion cable
Permitted position	Between CPU and first expansion module, or between two expansion modules

03 SOURCE AND CONFIGURATION CHECKS

The manual permits one expansion cable per CPU system, either between the CPU and its first expansion module or between two expansion modules. Connector retention and strain relief are part of the installation guidance, particularly where the mounted equipment can move or vibrate.

Packed dimensions and supplied-unit origin must be checked against the actual delivery. No verified gross shipping weight is inferred from module net mass.
