AMIKON TECHNICAL DOCUMENTATION

Product Data Sheet

ON6KB S6048 08W

Key-Operated Cam Selector Switch

TYPE	REFERENCE	FAMILY	SCOPE
Key-Operated Cam Selector Switch	**S6048 08W**	**ABB ON6KB**	**Nameplate evidence**

The pictured ABB switch is marked ON6KB S6048 08W and has a key-operated selector with a marked front plate. The rear contact assembly carries numbered terminals. Use all three identifiers and the existing front markings when selecting a replacement for a documented installation.

01 DOCUMENTED PRODUCT REFERENCE

Actuator type	Key-operated selector
Terminal identification	Numbered contacts on the pictured rear assembly

Observations describe the pictured configuration. Verify the offered unit marking before selection.

02 TECHNICAL DATA

Marked utilization category	AC-23A; apply only the marked load and voltage conditions

03 APPLICATION AND CONFIGURATION

- Match all three markings, including 08W
- Compare the key positions and front plate
- Confirm the S6048 contact schedule before installation
- Verify the marked utilization category and load conditions
- Use the applicable manufacturer safety and installation instructions.

04 OFFICIAL DOCUMENTATION

ABB switch markings; ABB cam-switch catalogue

Exact label ON6KB S6048 08W; ABB 1SCC302003C0201 provides family context only, not the exact contact schedule.

Independently prepared Amikon reference summary, not an original manufacturer manual. Ratings apply only under their documented conditions. Confirm the supplied marking and approved configuration before selection, installation or replacement.
