Siemens 6ES7635-0AA00-4AA0

Screw-terminal connector set for SIMATIC C7

TERMINALS	FUNCTION	HOSTS	CODING
Screw type	**I/O and power**	**C7-613/635/636**	**Profiles and tabs**

The Siemens 6ES7635-0AA00-4AA0 is a screw-terminal connector set for the I/O and power connections of SIMATIC C7-613, C7-635 and C7-636 equipment. It is a wiring accessory, not a controller, display assembly or replacement electronics module.

01 VERIFIED TECHNICAL INFORMATION

Connection method	Screw-type terminals
Documented host families	SIMATIC C7-613, C7-635 and C7-636
Connection functions	I/O device wiring and power supply connections

Manufacturer evidence: SIMATIC C7-635 Control System manual; exact-model manual section.

02 TECHNICAL INFORMATION CONTINUED

Mechanical coding	Coding profiles and coding carriers/tabs
C7-635 connector formats	16-pin, 6-pin and 4-pin connection positions
C7-635 conductor cross section	0.2-2.5 mm2 as documented for C7 I/O connections

03 SOURCE AND CONFIGURATION CHECKS

The original C7-635 manual identifies coding profiles and coding carriers for this connector set. These parts help prevent incorrect insertion without sacrificing a connection pole. Select the set against the installed C7 variant, existing connector positions and documented wiring arrangement.

Packed dimensions and supplied-unit origin must be checked against the actual delivery. No verified gross shipping weight is inferred from module net mass.
