Product Data Sheet

QIPA121

Enclosed Electrical Control Unit

TYPE	REFERENCE	FAMILY	SCOPE
Enclosed Electrical Control Unit	**QIPA121**	**QIPA121**	**Physical reference**

ABB QIPA121 YM321001-AB is an enclosed electrical unit with a rectangular metal housing, a removable cover and grouped cable entries. The assembly presents its connections through a separate gland plate, keeping the external cable arrangement distinct from the main enclosure panels.

01 DOCUMENTED PRODUCT REFERENCE

Housing construction	Rectangular metal enclosure
Enclosure access	Removable fastened cover

Manufacturer data summarized for the identified model and stated conditions.

02 TECHNICAL DATA

Cable entry plate	Separate plate with six visible cable glands
Additional cable entry	One entry on another enclosure face

03 APPLICATION AND CONFIGURATION

- QIPA121 identity
- Complete supplied article and connection arrangement
- Applicable ratings and required configuration
- Qualified acceptance and functional checks
- Use the applicable manufacturer safety and installation instructions.

04 SOURCE AND SCOPE

Original product physical reference

Exact-model evidence and exclusions recorded in the current per-product evidence packet.

Independently prepared Amikon reference summary, not an original manufacturer manual. Ratings apply only under their documented conditions. Confirm the supplied marking and approved configuration before selection, installation or replacement.
